Labour disputes and their resolution in China

Labour disputes are identified and discussed in this comprehensive review as well as how they can be managed. The labour disputes resolution mechanisms discussed in this book include trade union collective bargaining.

Whether individual or collective in nature, labour disputes take place between two parties in employer-employee relations in which employees exercise their labour rights and fulfil their labour duties. Labour disputes in China refer particularly to disputes arising or relating to employment or labour contracts between employers which can be:

The labour dispute arbitration system in China

Because of the inevitability of these class disputes between labour and capital there is a need for the state to put in place labour dispute resolution mechanisms that are cost-effective and also managing the employment relationship in China.

Labour disputes on the rise: Authorities call on union to deal with

China Labour Bulletin Director Han Dongfang acknowledged the government's concern over rising tensions in China's workplaces and the need for reform. He stressed that the introduction of collective bargaining is the real solution to prevent disputes in the first place.

Labour disputes and their resolution in China

The Labour Contract Law does not grant the parties to an employment contract the right to agree on any arbitration or dispute resolution agreements other than those which are mandatory by law.

China issues new regulations on labour dispute resolution

The Chinese government has unveiled a new set of regulations that it hopes will enhance the labour dispute resolution process and crucially create an early warning system that can prevent minor disputes from snowballing into full-scale strikes and protests.
